## INTRODUCTION AND HIGHLIGHTS

To Our Valued Customers:

CitiDirect BE<sup>SM</sup> and CitiConnect<sup>®</sup> represent the next generation of Citi's access channels for online banking and host-to-host connectivity. Our platforms provide a single point of entry into a complete suite of corporate banking and cash management services. Our CitiDirect BE platform offers improved navigation, quick search capabilities, and a single-entry portal. With CitiDirect BE, customers have access to a wide variety of value-added services including Payment Analytics, ReceivablesVision, and eBAM (Electronic Bank Account Management). Similarly, Citi's premier host-to-host connectivity solution, CitiConnect, offers a multitude of connectivity options along with the flexibility to integrate with ERP, treasury workstations and other accounting systems. CitiConnect aims to solve client's connectivity challenges and to achieve straight-through-processing to increase efficiency and limit manual intervention.

Additionally, CitiDirect BE<sup>SM</sup> Mobile and CitiDirect BE<sup>SM</sup> Tablet are channel extensions of CitiDirect BE that provide clients with the ability to securely manage their global cash and trade needs anytime, anywhere, real-time. Both CitiDirect BE Mobile and CitiDirect BE Tablet utilize the same security and entitlements infrastructure as CitiDirect BE.

On September 13<sup>th</sup> enhancements were deployed to enrich user experience with new updates to the Mega Menu and a redesign of the Widget Gallery. The Mega Menu provides one click access to a wide range of functionality within CitiDirect BE and makes it easier to navigate the menu to find exactly what you need. Additionally, CitiDirect BE includes a range of widgets, which are aimed at improving productivity by giving access to commonly requested information and functionality directly from the home page. In the September release the Widget Gallery was redesigned to make it easier to evaluate the features and benefits of each widget. Please read the CitiDirect BE [September 13<sup>th</sup> Release News](#) for full details regarding all of the enhancements.

In addition, on November 15<sup>th</sup> more new features will be deployed. These new features include global and regional service enhancements for File Processing, Payments, Receivables, and Reporting along with Legal and Regulatory enhancements for countries worldwide. We have provided details of these enhancements in the document herein. Highlights include:

**Payments Menu Structure** – Menu structure for Payments has been modified to align with most used items (Payment Initiation) at the top of Payments menu.

**Quick Tasks** –The functionality has been extended to support payment for three additional countries: South Africa, Jordan, and Cameroon.

**CitiDirect BE<sup>SM</sup> Tablet Counterparty Balances** – Clients can view their third-party bank balances leveraging SWIFT data.

**CitiDirect BE<sup>SM</sup> Mobile** - Enhancements to Payment Status Inquiry now allows for quick access to recent payments in the past three days.

**Trade Import LC Issuance and Import LC Amendments** – A document upload hyperlink will be provided for Import LC and Amendment to Import LC to allow the upload of the documents required as part of the import LC issuance / amendment process.

We hope these added features provide value to your CitiDirect BE and CitiConnect experience. For questions or additional information, please contact your Citi representative

Sincerely,

The CitiDirect BE and CitiConnect Teams

## Global Updates

The following updates will be available to all Treasury and Trade Solutions clients who have entitlements to the services listed below.

### CitiDirect BE

#### File Export

**Forward Slash Characters in SWIFT Formats** - For SWIFT MT940 and MT942 based formats a new client preference is introduced to control the presence of forward slash characters in the references output in Tag 61 sub-fields 7 and 8. With this new preference enabled, forward slash characters will be removed from the Tag 61 sub-fields if they appear in the first or last position of the reference. Additionally, double forward slashes will be removed, regardless of where they are positioned in the reference. This new preference is applicable to the following export formats: SWIFT MT940, SWIFT MT942, SAP MT940, SAP MT942 and Legacy SWIFT MT940 – EBR.

#### Payments

**Menu Structure** – Menu structure for Payments has been modified to align with most used items (Payment Initiation) at the top of Payments menu.

**Quick Tasks** – Quick Tasks functionality has been extended to support payments for the following countries:

- Cameroon
- Jordan
- South Africa

#### Reports

**Conflicting Access Report** – A new "Conflicting Access Profile Transaction Limit" report was created that will display the list of users and their Access Profiles assigned where there is a conflicting maximum amount limit.

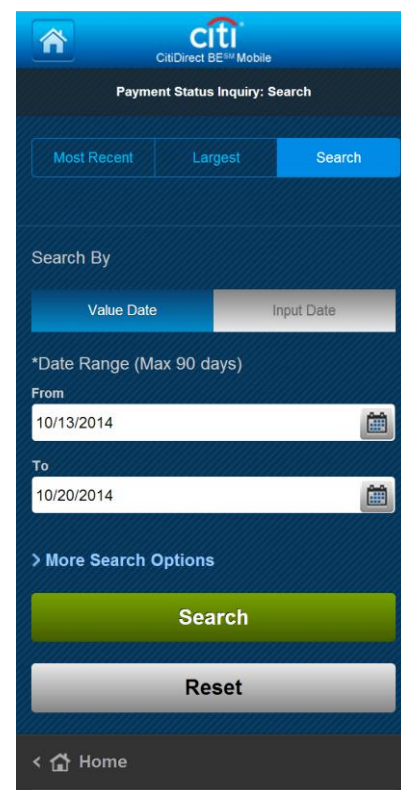

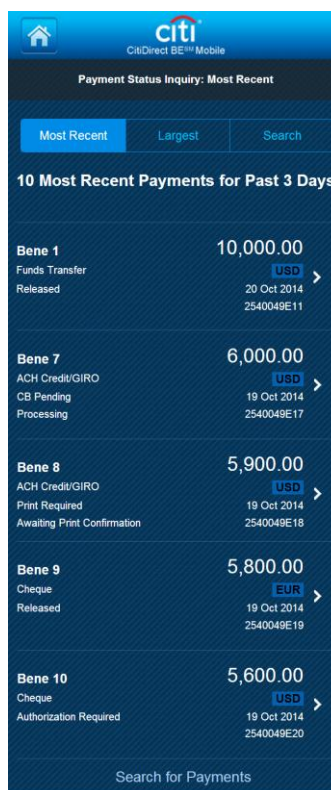

### CitiDirect BESM Mobile

**Payment Status Inquiry – Most Recent Payments:** You can now view the status and sub-status of your recent payments without needing to search. Simply navigate to the “Most Recent” or “Largest” section in Payment Status Inquiry for quick access to your recent payments in the past three days. We have also simplified Search, for a more intuitive user experience.

**Need to initiate payments away from your desk?** Payment initiation via full-limited modification preformats is now available in seven additional countries (South Africa, Jordan, Cameroon, Colombia, Brazil, Dominican Republic, and Puerto Rico). For the full listing of countries along with their supported payment methods, please consult our [FAQ](#).

### CitiDirect BESM Tablet

**Counterparty Balances** – CitiDirect BE Tablet now offers clients a truly holistic real-time view of their daily cash balances. On top of showing Citi balances, CitiDirect BE Tablet is now able to also

show clients their third party bank balances leveraging SWIFT data.

## CitiConnect® for Files

**WorldLink Payment Instructions** – To support current WorldLink product processor supported fields, such as Addresses for Creditor, Debtor, Cheque Instruction, Intermediary Agent and Credit Agent, Exchange Rate, Identification of Creditor Agent, and Debtor Agent Instruction, new single payment instruction for WorldLink (ACH, Wire, SEPA, Cash and Mass) payments has been added to below maps:

- ISOXML V3 Credit Inbound Map
- ISOXML V3 PSR Outbound Map

## Trade

**Import LC Issuance and Import LC Amendments** – A document upload hyperlink will be provided to the customer in Import LC and Amendment to Import LC screens in CitiDirect BE where they can upload the documents required as part of the import LC issuance / amendment process. The customer will enter the details and upload the documents. Once the transaction is submitted and authorized by Customer in the CitiDirect BE window, the uploaded documents will reach our processor directly thus avoiding scanning and printing of documents.

**Direct Presentation** – This service has been expanded to accommodate the following languages: Spanish, French, Portuguese, Italian, Czech, Simplified Chinese, Traditional Chinese and Japanese, including when the system prompts the upload functionality. Users now logging into the system using these languages will now see the field names in the language that he or she has selected.

## Updates by Region

The updates to CitiDirect BE and CitiConnect by region are listed below. These updates will be available to clients who have entitlements to the services listed in the respective regional service offerings.

### Asia

#### Asia – By Country

##### File Import

**Korea** – Digital Signature Validation (DSV) mandate will provide an effective security measure for customers initiating transactions in CitiDirect BE File Imports. DSV functionality will be supported for all transaction(s) originated from Korea branch accounts when the client preference "Allow Transaction Signing using Korea Digital Certificates" is enabled. Prior to releasing the transaction from CitiDirect BE:

- When Bypass Run Level Authorization is No and Authorization is required in File Import, entitled file imports user will be enforced to fulfill DSV at every level of authorization.
- When Bypass Run Level Authorization is No and Release is required in File Import, entitled file imports user will be enforced to fulfill DSV only at the time of releasing the run.
- In case of multi-select at the time of Release, DSV will be enforced only once that will suffice for all Runs selected.
- In case of straight-through release, transactions for DSV fulfillment will be parked in "Release Required" queue in the Payments Application. Entitled user must access the Payments service class and fulfill the DSV in order to release the file initiated payments.

Subject: Citibank account statement reconciliation - Reminder

Dear Customer,  
尊敬的客户：

Citibank has not received the acknowledgement for account statement of 2014/10/01 from your company:  
我行仍未收到贵公司 2014/10/01 之银企对账确认。

To ensure safety of your company accounts, we will execute the Post No Debit to your account if no further confirmation is received from your company within two reconciliation cycles. Therefore your cooperation will be greatly appreciated. But the account No Debit status will be released once we receive your balance confirmation. You can confirm the account reconciliation through CitiDirect® Online Banking.  
为了维护贵司的账户安全，我行将对贵公司连续两个对账周期未成功完成银企对账的账户实施内部出账限制措施，敬请注意并谅解。一旦贵公司成功完成相应账号的银企对账，我行将立即解除内部出账限制。如贵司已开通网上银行，即可以通过CitiDirect®网上银行完成银企对账。

Please kindly ignore this Reminder if you have already completed the account reconciliation confirmation. If you have any queries, please do not hesitate to contact our CitiService Customer Service representatives (800-820-1268).  
如贵司收到本提醒函时已完成银企对账，请忽略此函。如有任何疑问，请致电花旗客户服务热线(800-820-1268)。

Thank you for your understanding and cooperation.  
感谢您对花旗银行的理解与支持！

Yours sincerely,  
顺祝 商祺！
